DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 6, 10, 12, 14 – 25 and 29, drawn to a process for producing a foam composite having an integrated foamed body core.

Group II, claim(s) 2 – 5, 7 – 9, 11, 13 and 26 – 28, drawn to a process for producing a foam composite having homogeneous and fine bubbles.

Evidence of lack of unity between these two groups is found in Shiina et al, JP 2002192548, wherein it is found to disclose the features of instant Claim 1. As such, the special technical features of the claimed invention are not found to define a contribution over the prior art.
